

kindergallery.com

the new online gallery offering the finest art and design for children.

SYDNEY, JULY 2007

Kindergallery is a new online gallery shop offering the finest wall art and design works for children from around the globe. Based in Sydney and with a second home in Berlin, Kindergallery has sourced works from leading artists from Europe, USA and Australia. Our international artists have already enjoyed considerable success overseas, and we are particularly excited to have the opportunity to make their works available, in many cases for the first time, in Australia.

Each piece has been hand-picked to inspire the imagination of children of all ages. Kindergallery hopes that its collection will encourage children to acquire the visual language of art and design in a stimulating and lasting way. With this in mind, we have selected works exhibiting an aesthetic richness to which children can respond in different ways as they grow up, and which will form part of a child's visual vocabulary for a lifetime.

The Kindergallery collection's aesthetic timelessness is matched with the durability and quality of the materials used by our artists. The works have been created using the finest materials, and are designed to be enjoyed for years.

A walk through the virtual gallery also reveals that Kindergallery has compiled the collection with a careful eye for complementing, rather than competing with, the clean, striking aesthetic of the twenty-first century home. The apparently simple sophistication of the Kindergallery works demonstrates a flair which will appeal to modern parents and their children in equal measure.

The Kindergallery online shop offers original paintings, limited edition works, prints, stretched canvases, box art, photographic works, felt design products and wall decals. This comprehensive range includes something for every budget and is replete with gift ideas for any occasion.
