

gav barbey

After the birth of his daughter, award winning Sydney artist Gav Barbey was inspired to create a body of work that could be enjoyed by children of all ages. By pouring and splashing high gloss acrylic paint straight from the tube, Gav creates raised, tactile impressions inspired by the living world that flies, runs, crawls, slithers and swims, and the living machines that drive, fly and sail around us.

Kindergallery is honoured to offer a selection of these original paint-pour acrylic on canvas works by Gav Barbey. View the collection for yourself at www.kindergallery.com
